

**25kW / 31.5kVA
LIQUID COOLED
POWERED by**

MODEL	TP-N25-EPA	
<p>Triton Power is a world leader in the design, manufacture of stationary, mobile, natural gas, rental generators and Power Modules from 10 to 2000 kW. Through our commitment to quality we manufacture with only the highest quality components from companies like Cummins, John Deere, Perkins, Isuzu Marathon, and Deep Sea. All of this plus our worldwide warranty, customer service professionals, is why Triton is the</p> <p align="center">THE POWER OF QUALITY</p>		
<p>Available Configurations</p>	<p>Standby Power</p>	<p>25 kW / 31.5 kVA</p>
<p>Three Phase @ 0.8 PF 208/120, 480/277 VAC, 60Hz</p>	<p>Prime Power</p>	<p>22.5 kW / 28 kVA</p>

Standby : Continuous running at variable load for duration of an emergency. No overload is permitted on these ratings. In accordance with ISO 3046 .

Prime : Continuous running at variable load for unlimited periods with 10% overload available for 1 hour in any 12 hour period. In accordance with ISO 8528, ISO 3046.

- High quality, reliable and complete power unit
- Attractive, compact design
- Easy start and maintenance
- Liquid Cooled with Large Capacity Radiator
- Quieter Operation and Reduced Decibel Levels with the Water Cooled Engine
- Every generator set is subject to a comprehensive test program which includes full load testing and checking and providing of all control and safety shut down functions testing
- Engineered with a wide range of options and accessories:
 - Sound Attenuated Enclosure
 - Critical Grade Muffler
 - High Performance Oil Pump and Large Capacity Oil Tank

ENGINE INFORMATION		
ENGINE MAKE		PSI
Model		2.4L
Engine Speed	RPM	1800
Engine Power Output at rated rpm	HP	43
	kW	32
Cooling		Liquid Cooled
Total Displacement	Liter	2.351
No. of Cylinders and Build		4 In line
Bore and Stroke	mm	86.5 x 100
Governor		Electronic
Fuel Type		Natural Gas
Fuel Consumption lb/hr	100%	0.361
Oil Capacity	L	4.25
Coolant Capacity	L	n/a

<p>Designed for easy installation with attractive, Compact structure and reliable performance. Commitment to component testing, reliability testing, environmental testing, destruction and life testing. With the weather tool kit help, unit can run at the ambient temp of -28.9°C(-20°F).</p> <p>Meets emission regulations for U.S. Environmental Protection Agency (EPA)</p>	<ul style="list-style-type: none"> • Rapid product availability • Proven reliability and low life-cycle costs • Water cooled engine offers longer engine life span • High efficiency and operational flexibility • High quality electrical performance • Well-established service and fuel supply infrastructure

CONTROLLER INFORMATION DEEP SEA MODEL 7310

The DSE7310 is a control module for single gen-set applications. The module incorporates a number of advanced features to meet the most demanding on-site applications. The DSE7310 is an Automatic Start Control Module designed to start and stop diesel and gas generating sets that include electronic and non-electronic engines. The module includes USB, RS232 and RS485 ports as well as dedicated DSENet® terminals for expansion device connectivity. The modules are simple to operate and feature a simple menu layout for improved clarity. Enhanced features include a real time clock for enhanced event and performance monitoring, Ethernet communications for low cost monitoring, dual mutual standby to reduce engine wear and tear, and preventative maintenance features to detect engine part faults prior to a major problem occurring.

MAIN FEATURES:

NEW FEATURES

- 4-Line back-lit LCD text display
- Five key menu navigation
- Front panel editing with PIN protection
- Customisable status screens
- Power save mode
- Support for up to three remote display units
- 9 configurable inputs
- 8 configurable outputs
- Flexible sender inputs
- Configurable timers and alarms
- 3 configurable maintenance alarms
- Multiple date and time scheduler
- Configurable event log (250)
- Tier 4 CAN engine support
- Integral PLC editor
- Easy access diagnostic page
- CAN and Magnetic Pick-up/Alt. sensing
- Fuel usage monitor and low fuel alarms
- Charge alternator failure alarm
- Manual speed control (on compatible CAN engines)
- Manual fuel pump control
- Engine exerciser
- "Protections disabled" feature
- kW & kV Ar protection
- Reverse power (kW & kV Ar) protection

- LED and LCD alarm indication
- Power monitoring (kWh, kVAr, kV Ah, kV Ar h)
- Load switching (load shedding and dummy load outputs)
- Automatic load transfer (DSE7320)
- Unbalanced load protection
- Independent Earth Fault trip
- True dual mutual standby with load balancing timer (DSE7310 only)
- USB connectivity
- Backed up real time clock
- Fully configurable via DSE Configuration Suite PC software
- Configurable display languages
- Remote SCADA monitoring via DSE Configuration Suite PC software
- User selectable RS232 and RS485 communications
- Configurable Gencomm pages
- Advanced SMS messaging (additional external modem required)
- Start & stop capability via SMS messaging
- Additional display screens to help with modem diagnostics
- Idle control for starting & stopping.
- DSENet® expansion compatible

BENEFITS

- 132 x 64 pixel ratio display for clarity
- Real-time clock provides accurate event logging
- Multiple date and time scheduler
- Set maintenance periods can be configured to maintain optimum engine performance
- Ethernet communications (via DSE860/865 modules), provides advanced remote monitoring at low cost
- Modules can be integrated into building management systems (BMS)
- Increased input and output expansion capability via DSENet®
- Licence-free PC software
- IP65 rating (with supplied gasket) offers increased resistance to water ingress
- PLC editor allows user configurable functions to meet specific application requirements

OPERATION

The module is operated using the front STOP/RESET, MANUAL, AUTO, TEST and START pushbuttons. An additional pushbutton next to the LCD display is used to scroll through the modules metering displays.

ALTERNATOR INFORMATION

Manufacturer	Stamford
Design	Brushless single bearing, revolving field
Stator	2/3 pitch
Rotor	Single bearing, flexible disc
Insulation System	Class H
Standard Temperature Rise	125 -163°C Continuous
Exciter Type	Self Excited
Phase Rotation	A (U), B (V), C (W)
Alternator Cooling	Direct drive centrifugal blower fan
AC Waveform Total Harmonic Distortion	No load < 1.5%. Non distorting balanced linear load < 5%
Telephone Influence Factor (TIF)	<50 per NEMA MG1-22.43
Telephone Harmonic Factor (THF)	<2%

STANDARD ITEMS

- Water Cooled Engine Liquid Cooled with Large Capacity Radiator
- Generator Set Mounted on Heavy Duty Steel Base Frame
- Anti-Vibration Pads between Engine/Alternator and Frame
- Battery Charging Alternator
- High-Performance Oil Pump and Large Capacity Oil Tank

OPTIONAL ITEMS

ENGINE OPTIONS	<ul style="list-style-type: none"> • Engine Block Heater • Oil Heater • Main Line Circuit Breaker
OTHER OPTIONS	<ul style="list-style-type: none"> • Residential or Critical Grade Silencer
